

STG International Wins Contract to Support Head Start Services Improvement Project in Region 1

September 30, 2008 - Alexandria, VA - STG International (STG) is proud to announce that it has been awarded the Region 1 Head Start Services Improvement Project contract with the DHHS Administration for Children and Families (ACF) in Region I in Boston, MA. The contract provides programmatic, administrative and technical support services for Head Start and Early Head Start grants. STG staff will perform program analysis, risk assessment, accounting/financial and automated financial and program information system support for Region 1's approximately 74 Head Start and 38 Early Head Start grantees in the Region's six states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. The contract has a one-year base period of performance with four one-year option periods.

STG has been performing similar services for ACF Region X in Seattle for over five years. In addition, STG provides a wide range of training and technical services directly to more than 500 Head Start and Early Head Start grantees in the 12 states through separate contracts with the ACF Office of Head Start.

"We are very pleased to be able to leverage our Head Start and grants management expertise for this new customer within ACF. We understand the unique needs of this very special customer, and we look forward to continue supporting the Head Start program and its many new initiatives under the Head Start Reauthorization of 2007" said Michelle Lee, President and CEO of STG International.

About STG International:

Founded in 1997, STG International is a leading provider of human capital management solutions for government organizations. We work with our HR clients to help them align their workforce composition with their organizational needs, maximize the growth and performance of their employees, and ensure that the entire organization operates within a result-oriented framework.

STG International is also a premier provider of recruiting and talent acquisition services for government agencies. We maintain a cadre of experienced recruiters who are very familiar with federal recruiting requirements and are closely aligned with many government and private-sector leading professional organizations.
