

STGi Launches New Training & Consulting Services

December 5, 2011 – Alexandria, VA – STG International, Inc,
DIVISION OF EDUCATION AND TECHNICAL ASSISTANCE SERVICES

About Our New Training & Consulting Services

Combining an impressive array of strategies, consultants and activities, STGi is proud to announce the launch of a new line of training and consulting services designed to help Head Start and Early Head Start program directors and staff develop stronger, more effective programs that ensure positive outcomes for young children and families. In core areas like fiscal management, program design and management, program governance and school readiness, our tried and true methodologies are designed to improve your program's management systems and educational capacity. Our services can be customized in many ways to meet your agency-specific needs and budget.

To assist early childhood education programs in developing their own staff members, STGi uses a full spectrum of competency-based training techniques customized around management roles, such as, teacher competency models, training on conducting child assessments and assessment interpretation training, and early care transition that aligns comprehensive early learning guidelines and standards for children from birth to age 5 with K-3 content standards aimed at closing the achievement gap. Our thorough needs assessment of your program will help identify your staff development needs and contribute to an in-service training plan aligned with your annual training and technical assistance plan. Our training topics include, but are not limited to:

- Professional Development Planning
- Strategic Planning
- Program Design and Management
- Fiscal Management
- Infant/Toddler Development
- Head Start 101 for New Head Start Managers & Directors
- Ongoing Monitoring
- Program Governance
- School Readiness
- Family & Parent Engagement

Customize Your Own Training and Consulting Service!

Do you have a specific topic for training or need consulting services? Don't worry . . . we also provide customized training and on-site consulting to focus on the areas that you identify as important. Our consultants will be happy to work with you to customize a training or consultation session specific to your needs! STGi can customize specific training in areas that are not offered through the Head Start T/TA Network, aimed at supporting your program with continuous program strategies, specifically as the new rule on redesignation becomes effective. For a training and/or consulting services quote, send your request to etas@stginternational.com.

Meet Our Senior Consultant

Dr. Myra Crouch serves as the Director of STGi's Education and Technical Assistance Division. She is a former Head Start Director who brings more than 20 years experience, demonstrated competency, and notable accomplishments in the education and Head Start community. She has extensive experience with designing, developing, and delivering effective training content, identifying needs for training and gathering and analyzing data. Her expertise in technical assistance includes facilitating processes for annual performance planning to establish program outcomes; performance indicators and ongoing monitoring; and consulting with delegate/grantee agencies, Policy Council and staff. Joining Dr. Crouch is a diverse cadre of consultants who have specialized expertise in areas such as fiscal management, Early Head Start, CLASS, and school readiness assessment and planning.

About STGi

STG International, Inc. is a woman-owned minority business, founded in 1997 to provide human capital management, medical, and professional services to Federal and private sector clients. Thanks to steady, exponential growth, STGi now employs more than 1,700 professionals in 41 states and territories, with headquarters in Alexandria, VA, and additional offices across the country. Dedicated to the Human Mission, STGi proudly supports the nation's most fundamental imperatives; including Head Start training and technical assistance, medical care for veterans, and government-wide human resource initiatives, among others.
