

## Michelle Lee of STG International to be featured on national business radio program

**Alexandria, VA – STG International** announced today that its **CEO and President, Michelle Lee**, will be the featured guest on *The Growth Strategist™*, a nationally known Internet radio program hosted by Aldonna Ambler.

The show will be broadcast on **Tuesday, September 15** at 11 a.m. ET, 8 a.m. PT on the VoiceAmerica Business Channel ([www.business.voiceamerica.com](http://www.business.voiceamerica.com)).

During the program, **Ms. Ambler** will be discussing with Ms. Lee how a “fearless commitment to continually taking business to the next level” earned a first-generation immigrant from Taiwan her place on INC magazine’s list of the fastest growing privately held companies. Lee will also explain why she remains the sole owner of her 1,700-employee company, which serves clients in 36 states and Puerto Rico, across three lines of business.

*The Growth Strategist™* airs every Tuesday at 11 a.m. ET and runs for one hour. Throughout the program, listeners can call or email questions to the host and guest. The shows are also available on-demand online for free (Internet radio is a fast-growing and convenient medium for busy executives to gain information and insight). *The Growth Strategist™* is a peer-to-peer program that rotates through various industries, geographic locations and strategies (one show might feature a retailer in Singapore who grows business through franchising, while another might feature a manufacturer from Kansas City who grows business through acquisition). Each show starts with the equivalent of a mini-teleseminar, providing 4-5 success tips concerning the growth strategy-of-the-week.

“My show speaks directly to CEOs of fast-growth midmarket companies (\$20-200 million) about growth strategies, moving past plateaus, what to do next while Achieving Accelerated Growth With Sustained Profitability®,” says Ambler. “I invite guests from diverse industries, backgrounds, geographies and philosophies to share how, when and why they are where they are today, and how many speed bumps they hit on their journeys.”
