

For Immediate Release

STGi Wins Re-compete for the NASA Dryden Flight Research Center

ALEXANDRIA, VA, May 24, 2010 – STG International, Inc. (STGi) announced today a contract win to manage the Wellness and Fitness Service Center at the NASA Dryden Flight Research Center (DFRC). The Center plays a vital role in ensuring that the DFRC receive quality, professional occupational health services and fitness programs.

“We are delighted to continue working with NASA DFRC to provide occupational health services to the Wellness and Fitness Center,” said STGi CEO Michelle Lee. “There are over 1,100 professionals at the facility who expect a high level of care and will benefit from the programs that STGi will provide.”

A variety of personnel work at NASA DFRC have access to the services of the wellness and fitness center including: researchers, scientists, technicians, administrators, contractors and civilians. Services include: medical services for exams (medical clearances), on the job injuries/illnesses, unexpected or emergent incidents and/or general health, wellness and prevention activities. Due to the remote location of NASA DFRC, the health unit personnel are the first point of response for injured or ill workers.

The contract is for 1 year with 5 additional year options.

About STGi:

STG International, Inc. (STGi) is a woman-owned minority business, founded in 1997 to provide human capital management, medical, and professional services to Federal and private sector clients. Thanks to steady, exponential growth, STGi now employs more than 1,700 professionals in 38 states and territories, with headquarters in Alexandria, VA, and additional offices across the country. Dedicated to the Human Mission, STGi proudly supports the nation’s most fundamental imperatives; including Head Start training and technical assistance, medical care for Soldiers, and government-wide recruitment, among others.
